life's better onboard

Experience the road differently with Renault Kwid's technology. The multimedia system with a 20.32 cm touchscreen provides easy access to smartphone mirroring and vehicle information. The digital dashboard streamlines your driving experience, while the rearview camera simplifies manoeuvring.

Android Auto™ and Apple CarPlay™⁽¹⁾ compatibility lets you access all your apps, playlists, and calls directly on the multimedia touchscreen.

**the human first program
is a comprehensive safety
program developed by Renault
in collaboration with researchers,
experts and fire-fighters.**

**because road safety is the business
of all road users – be they pedestrians,
cyclists or motorists – the human first
program by Renault undertakes to:**

- 1. prevent accidents by developing safety equipment
and advanced driving and safety assistance systems**

up to 32 advanced driving assistance systems / more than
60 safety systems, up to 7 airbags, child seats (Isofix), Renault's
Fixe4sure solution / more than 2,000 safety-related patents
filed since 1970
- 2. manage accidents once they have happened by drawing
on innovations developed in collaboration with fire-fighters**

QRescue / Fireman Access / more than 5,000 fire-fighters
trained over the past 10 years in 20 countries throughout
the world / around 400 cars given per year for their training
- 3. reduce the number of accidents and their severity
by investing massively in R&D**

safety score / safety coach / connected services / big
data / artificial intelligence and cybersecurity systems
