Future is an attitude

At Audi, we make cars with a vision of constant progression. Never stopping, keep moving forward. That’s what cars at Audi signify. As we foray into the world of electric, we face the reality of what we create; not just better cars, but cars that will lead to a better tomorrow. For Audi, future is an attitude.

Audi e-tron GT

The newest entrant into the Audi electric series, the Audi e-tron GT is an all new fully electric sports car. It radiates sportiness, exclusivity and comfort. With a progressive, aerodynamic design and the gran turismo concept, the Audi e-tron GT is an eye-catcher. Driving it is a thoroughly emotional experience.

Audi RS e-tron GT

The Audi RS e-tron GT is unlike any other RS; it's the epitome of unadulterated energy that's crafted with passion and driven by progression. And the top-of-the-line Audi RS e-tron GT is one such vehicle, with its eyes on the future that combines performance with progression. It's characterised by RS emblems with the red rhombus as a symbol of superb performance.

PERFORMANCE

Born to Outperform

The Audi e-tron GT and the Audi RS e-tron GT are both prime examples of performance, electrified. Being the first fully electric sports cars from Audi, these vehicles are designed to outperform. The Audi e-tron GT has a power of 530 hp that accelerates from 0-100 km/h in 4.1 seconds, while the RS e-tron GT achieves this feat in 3.3 seconds with its 646 hp engine. With a standard 93kWh battery in both cars along with adaptive air suspension, boost function, and other features, you're strapped in for a long and exhilarating ride.

PERFORMANCE

Audi e-tron GT

Power*	Torque	Acceleration*	Range (WLTP combined)	Battery
390 kW/530 hp	630 NM	4.1 sec (0 to 100 km/h)	388-500 km	93 kWh

*Figures for Power and acceleration are with Boost function

PERFORMANCE

Audi RS e-tron GT

Power*	Torque	Acceleration*	Range (WLTP combined)	Battery
475 kW/646 hp	830 NM	3.3 sec (0 to 100 km/h)	401-481 km	93 kWh

*Figures for Power and acceleration are with Boost function

PERFORMANCE FEATURES

Audi Drive Select
Audi Drive Select lets you choose more performance, more comfort, or an individual combination of the two for your vehicle. Different modes let you determine the characteristics of your Audi e-tron GT quattro so that you can enjoy the right driving experience at any time. Efficiency mode can help save energy in comparison to the Comfort and Dynamic mode.

All Wheel Steering with Electromechanical Power Steering Plus*
The All-Wheel steering increases comfort, driving safety and driving dynamics by steering the rear wheels in the same or the opposite direction to the front wheels- depending on the speed. The electromechanical power steering plus features power steering with greater support for steering assistance at low speeds.

e-quattro
The electric quattro ensures continuous and fully variable regulation of the ideal distribution of drive torque between the two axles – within a fraction of a second, almost instantaneous with absolute precision. The Audi RS e-tron GT uses an electronically controlled differential lock on the rear axle for variable distribution of the drive torque between the rear wheels.

[#] Standard for the Audi RS e-tron GT, optionally available on the Audi e-tron GT
*All features marked (*) are optional.

PERFORMANCE FEATURES

Adaptive Air Suspension[#]
For excellent ride comfort and outstanding handling, the Audi RS e-tron GT quattro is equipped with electronically controlled 3-chamber air suspension and a continuously variable adaptive damping system on all four wheels to automatically regulate the vehicle ride height and damping.

Active Rear Spoiler
The Active Rear Spoiler controls the air resistance and down-force at the rear, enhancing the car's aerodynamics and performance. This retractable spoiler comes as standard for both the Audi e-tron GT and the RS e-tron GT. The spoiler will automatically move into position depending on the speed.

e-tron Sports Sound*
Sportiness, high quality and the progressive character of the Audi e-tron GT and the RS GT come into their own while driving thanks to the optional e-tron sports sound. This futuristic sound is emitted via an additional external loudspeaker and two additional internal loudspeakers.

[#] Standard for the Audi RS e-tron GT, optionally available on the Audi e-tron GT
*All features marked (*) are optional.

PERFORMANCE FEATURES

Ceramic Brakes with Anthracite Grey/Blue/Red brake calipers*
The high-performance brake system with carbon fiber reinforced ceramic brake discs is characterized by excellent deceleration values. These have long service life and low weight. The ceramic brake discs are internally ventilated and perforated to improve heat dissipation when braking.

Launch Control (Boost Function)
Launch your car to record speeds with the Boost Function. A considerable boost in power for unbelievable performance.

EXTERIOR

Image for representation purpose only. Please contact your nearest Audi authorized e-tron dealer for further details.

Progress meets perfection

The body of this electric sports car has been tailor-made to represent the power within. The Audi e-tron GT and the RS e-tron GT have a unique, highly contoured shape, with a quattro blistered front and rear, along with pronounced side sills that characterise the battery pack. LED Headlamps and Rear Combination Lamps with dynamic turn indicators shine the path ahead for this electric sports vehicle, while the panoramic glass sunroof offers an unobstructed view of the sky. Choose the Black Styling Package along with a carbon fibre roof to lend your Audi an edgier look.

EXTERIOR FEATURES

Matrix LED with Audi laser light*

For a precise, high-resolution illumination of the road, choose the Matrix LED headlights with Audi laser light technology for your vehicle. The fascination of this technology is also evident with the futuristic-looking dynamic light staging of the coming home/leaving home function.

Matrix LED Headlamps with dynamic turn indicators[#]

Dazzle the streets with the Matrix LED Headlamps with dynamic turn indicators that produce a near-daylight illumination of the road, in turn increasing safety, comfort and convenience. When activated, the dynamic indicator is impressive with its striking, dynamic and highly visible light progression. The glare effect on oncoming vehicles is also reduced as the camera system can recognize and selectively fade out the necessary area while the high beam remains active.

LED Rear Combination Lamps with dynamic turn indicators

Brake lights with LED technology are impressive for the way they activate more quickly. The light signature is a distinctive styling feature at the rear, giving the dynamic indicator a very progressive look.

[#] Standard for the Audi RS e-tron GT, optionally available on the Audi e-tron GT.
*All features marked (*) are optional.

EXTERIOR FEATURES

Charging Ports on both sides
To make things more convenient for the driver, the Audi e-tron GT and RS e-tron GT have been equipped with charging slots on both sides of the car.

Roof in Carbon Fibre*
Lend some enhanced agility to your vehicle with the Carbon Fibre roof, which reduces the car's weight and lowers its centre of gravity.

Panoramic Glass Sunroof
Gaze at the expansive sky above as you zoom under it through the fixed Panoramic Glass Sunroof, which comes as a standard.

*All features marked (*) are optional.

EXTERIOR FEATURES

Black Styling Package with Audi Logos in Black*
Everything looks better in black, even if it's the body of the already alluring Audi e-tron GT and Audi RS e-tron GT. In addition to the black exterior components, now even get the Audi logos on the car in glossy black, giving your Audi an elegant dark presence.

50.8 cm (R20) Aero Design Alloy Wheels
The 50.8 cm (R20) Aero Design Alloy Wheels not just provide maximum mobility on the road, but also complement the look of your vehicle.

*All features marked (*) are optional.

Image for representation purpose only. Please contact your nearest Audi authorized e-tron dealer for further details.

RS Styling Package*

Add a dash of style to your Audi e-tron GT or the Audi RS e-tron GT with the RS Styling Package available in Express Red and Steel Grey.

- Sport contour steering wheel in Alcantara black with contrasting stitching in Express Red or Steel Grey.
- The upper side of the instrument panel, door panels, armrests in the doors and lower center console are all upholstered in fine Nappa leather with contrasting stitching in red or grey.
- Black Dinamica microfiber with contrasting stitching in Express Red or Steel Grey adorns the instrument panel cover, door trim inserts and top center console.
- Seat belts in Express Red/Steel Grey.

- Floor mats in black with contrasting stitching in Express Red/Steel Grey.

*All features marked (*) are optional.

INTERIOR

Designed to recharge

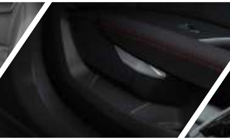
Inside, the Audi e-tron GT and RS e-tron GT, design marries sporty ergonomics with passenger comfort. Even with their tapering rooflines, both cars can effortlessly house up to 5 occupants. In front of the driver, the continuous horizontal lines of the dash hold a centre instrument console and touch screen panel that just seems to float. The front Sports Seats Plus are available in Dinamica Microfibre/Leatherette combination upholstery, giving optimum support and comfort, even when cornering at high speeds.

Image for representation purpose only. Please contact your nearest Audi authorized e-tron dealer for further details.

INTERIOR FEATURES

Sports Seats Pro Package*

The Sports Seats Pro in the front come with integrated head restraints and offers 18-way adjustable seat functions to go with your driving style, comfortably. Upholstered in perforated leather with honeycomb stitching, the Sports Seats Pro Package comes with seat ventilation, heating and massage functions for a truly relaxed driving experience.



Bang & Olufsen 3D Sound System[#]

The 16 speaker Bang & Olufsen 3D Sound System comes with 3D sound loudspeakers, centre speaker and a subwoofer, along with a 15-channel amplifier that has a total output of 710 watts. Now, that's how you jam on a ride.

Ambient Lighting Package Plus

The Ambient Lighting Package Plus will let you choose the right shade to illuminate the interiors of your car and highlight its best bits. Comes with 30 different colours customized through the colour profile.

[#] Standard for the Audi RS e-tron GT, optionally available on the Audi e-tron GT.

*All features marked (*) are optional.

INTERIOR FEATURES

3 Spoke Flat Bottom Steering Wheel
The 3 Spoke Flat Bottom Steering Wheel is an ergonomically designed tool that increases comfort and maximises utility. Also, the aluminium shift paddles enable the recuperation levels to be changed manually.

3 Zone Air Conditioning
Beat the heat with the power of the 3 Zone Air Conditioning system. Control the temperature simultaneously for the driver, the passenger seat and the rear compartment.

#Standard for the Audi RS e-tron GT, optionally available on the Audi e-tron GT.
*All features marked (*) are optional.
**Standard only on the Audi RS e-tron GT.

INTERIOR FEATURES

Air Quality Package
The air quality package can help improve comfort and attention levels by the process of ionisation that reduces harmful particles and germs in the air, thus improving the air quality in the vehicle interior.

Comfort Key with sensor controlled luggage compartment operation
Just carry the comfort key with you to conveniently unlock and lock the vehicle and start/stop the motor, while a foot gesture at the rear is all it takes to unlock and open the luggage compartment lid particularly conveniently.

#Standard for the Audi RS e-tron GT, optionally available on the Audi e-tron GT.
*All features marked (*) are optional.
**Standard only on the Audi RS e-tron GT.

INFOTAINMENT

Image for representation purpose only. Please contact your nearest Audi authorized e-tron dealer for further details.

Connect to tomorrow

With the car of the future, comes the technology of the future. The Audi e-tron GT and RS e-tron GT are fitted with the best-in-class infotainment features. Get all crucial information about the car relayed to your fingertips with the Audi Virtual Cockpit, or turn your car into your own personal smartphone with the Audi Smartphone Interface. The possibilities granted by the technology in this car are limitless.

INFOTAINMENT FEATURES

Audi Virtual Cockpit
The Audi Virtual Cockpit is an innovative, adaptive, and intuitive 31.24 cm fully digital instrument cluster designed for flexible, on-demand display of relevant information tailored to fit the driver’s needs. Monitoring the electric range, displaying maps, or connecting with the radio and media services, the Audi Virtual Cockpit lets you pilot it all.

MMI Navigation Plus with MMI touch
With a high-resolution 25.65 cm colour display, the MMI navigation plus system is an intuitive touch-based system that provides haptic feedback and a host of functions, ranging from navigation on a 3D Map to other control functions. It can be operated using the touch display, voice control with natural language interaction or improved character recognition to deliver responses within a few short seconds.

*All features marked (*) are optional.

INFOTAINMENT FEATURES

Audi Phone Box
Make and receive calls while on the move with outstanding signal quality thanks to the Audi Phone Box, which couples with the vehicle's exterior aerial and provides excellent voice quality with the LTE support. Wireless charging of compatible smartphones enables you to stay in touch at all times, even when on the road.

Audi Smartphone Interface
Connect your smartphone to your Audi e-tron GT or RS e-tron GT with the Audi Smartphone Interface. This feature enables you to use selected apps on your device directly on the vehicle's MMI display. The integrated user interface provides a familiar graphic display and menu structure.

*All features marked (*) are optional. Image for representation purpose only. Please contact your nearest Audi authorized e-tron dealer for further details.

EFFICIENCY AND CHARGING

Great power, great rechargeability

At Audi, we believe in creating better technology for a better tomorrow, today. Which is why our electric cars promote a future that is greener and more sustainable. On a single charge, the Audi RS e-tron GT can travel upto 481 km, while the Audi e-tron GT can travel even further, upto 500 km. This is what makes Audi a pioneer when it comes to electric cars.

Image for representation purpose only. Please contact your nearest Audi authorized e-tron dealer for further details.

EFFICIENCY AND CHARGING FEATURES

Charging Capacity
The charging process is central to the everyday usability of your Audi e-tron GT or RS e-tron GT. These vehicles are equipped for both AC and DC charging, making the entire process faster than ever before. Less charge time means more road time.

11 kW AC/Optional 22 kW AC charging
With a simple alternating current charge of 11 kW to upto 22 kW, the battery's charged overnight from 5-80% and ready for a ride in 9 hours 30 minutes or 5 hours 15 minutes.

Up to 270 kW DC Charging
The Audi e-tron GT and RS e-tron GT are equipped for DC charging too. With a 270 kW DC charger, the battery can be charged from 5-80% in just 22.5 minutes.

Image for representation purpose only. Please contact your nearest Audi authorized e-tron dealer for further details.

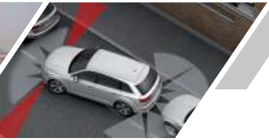
SAFETY

Image for representation purpose only. Please contact your nearest Audi authorized e-tron dealer for further details.

Instinctively safe

The Audi e-tron GT and RS e-tron GT are equipped with safety features that are right from the future. These features are designed to proactively sense and avoid danger rather than just react to it, so that you can always be safe and comfortable.

SAFETY/ASSISTANCE FEATURES



9 Airbags including Driver side Knee Airbag
Airbags have been placed in front of the driver's seat, passenger seat, And on both the rear doors for maximum safety, in case of a collision.

Lane Departure Warning
The perceptive Lane Departure Warning system warns the driver if the lane marking is inadvertently crossed while the Steering pulses help the driver stay in lane.

Park Assist Plus with 360-Degree Camera
This feature enables the vehicle to be manoeuvred in and out of parking spaces with a button and the 360-degree camera provides you with a complete view of the area around your car. All you have to do is monitor your vehicle while it steers, accelerates, brakes and switches off the motor, all on its own.

*All features marked (*) are optional. Image for representation purpose only. Please contact your nearest Audi authorized e-tron dealer for further details.

A hub for the future

Want to know all about your Audi vehicle? Then head to the e-tron hub, a special tab available on the Audi Connect app that guides you on a range of functions and features of your Audi e-tron GT and RS e-tron GT. From guidance on finding your nearest charging station to getting to know your car better, the e-tron hub is full of endless possibilities and is available on the myAudi connect application and audi.in

Image for representation purpose only. Please contact your nearest Audi authorized e-tron dealer for further details.

Ease of purchase
Submit a survey request for your home or office using the Audi Mobility Check under e-tron Hub to help locate the best location for your charger.

Range Calculator
Learn how to plan your trips with the range calculator.

Charging Network
Get help locating the charging stations nearest to you on a digital map.

Savings Calculator
Quantify your car's environmental impact with this tool.

Image for representation purpose only. Please contact your nearest Audi authorized e-tron dealer for further details.

Limitless Knowledge
The e-tron hub has numerous video guides and FAQs to answer all the questions you might have about your vehicle, right from charging systems to usage.

Charging Time Calculator
Get an accurate estimate on the time required to charge the car based on the capacity of the charger available.

Convenience
One-click Dedicated Roadside Assistance for Audi e-tron on the myAudi Connect application.
